

PRODUCT RANGE

R T Machinery Ltd

"Linking value with service"

Equipment For Professionals

Innovative design, a wide range and constant evolution of product and customer services have enabled our family company to develop into one of the UK's premier machinery specialists. The team of dedicated professionals at RTM are passionate about customer satisfaction and the continued success of the business.

With a broad range of skills and experience matched with a wide choice of products you can be assured of the right advice, technical support and continued aftersales service.

With over 25 years experience in the turf care market we know a thing or two about providing a quality product at the right price and how to look after it over the years.

Quality does not come cheap but value is assured when you invest in one of our fine products.

An Independent family company located in the heart of the country serving the whole of the UK with turfcare products and after sales support.

Terms and conditions

RT Machinery Ltd reserves the right to change and improve the design and pricing of our products without notice, in line with our policy of continual improvement.

Finance payment plans, contract hire, rental and lease packages are offered subject to status and to independent finance companies policies and terms.

All prices and terms are subject to RT Machinery Ltd terms of trading .

A copy of this can be found at www.rtmachinery.co.uk or by email / post on request.

Product availability is subject to seasonal demand. We accept no responsibility for delivery times pre- or in-season, and encourage as much forward planning as possible to ensure continuity of supply and availability.

"PUSH'N'MOW"	6
CONTACT DETAILS	Back cover

As a major supplier of grounds maintenance equipment we have used our experience and buying strength to put together a range of quality traditional gang mowers at an affordable price.

We can supply on a direct basis or work locally through a network of garden machinery and grounds maintenance engineers.

Our gang mowers are supplied complete and ready to work with a few set-up adjustments and fixings.

Hire or buy, we have a package to suit a range of budgets and individual requirements.

Traditional mowing with a low cost investment - for long term performance and quality of cut.

Gang mower systems:

Sportster: 6 blade low-profile cutting reel, used in conjunction with a rear roller

Parkster: 5 blade 10 inch cylinder, used without a rear roller for semi-rough applications.

Standard build profile:

3 x 30 inch wheel driven cutting units giving an average 2.08m [82 inch] width cut.
Semi-pneumatic rubber tyres
Simple hand-drive engage/disengage controls
Greaseable rear rollers
Adjustable bearings
Heavy duty bottom blades
Removable wheels with access to cylinder drive for ease of adjustments
Set of three drop-over towing frames with clevis type drawbar
Facility to tow one behind the other for ease of transport.

Optional build profile:

5 bladed Parkster cylinders - cut width as Standard
Steel wheels in lieu of standard semi-pneumatic rubber tyres
5 gang configuration.

SPORTSTER and PARKSTER

trailed gang mowers

Our range of three or five traileed gang mowers, fitted with universal multi tow frames and high quality cutting units, manufactured exclusively for RTM to our specification.

SPORTSTER

The Sportster cutter head:
203mm dia reels
Rear roller
20mm - 89mm cut height

PARKSTER

The Parkster cutter head:
254mm dia reels
No rear roller
23mm - 60mm cut height

**Multi-Gang
version**

The RTM Sportster and Parkster range of mowers has been designed and manufactured to meet the standards of traditional mowing units of the past. These standards include build strength, durable wearing parts, high quality performance, easy adjustments and a long trouble-free working life.

With our units we have matched these qualities - and all at a price that most sports clubs and estates can afford.

Also available: the **RTM Sportster M.**

Design as above, fitted with a three-point linkage attachment.

RTM SLITTERS / AERATORS, SEEDERS / DRESSERS, SWEEPERS

Sportsfield and paddock turf machinery

Eco Slit: Tractor mounted slitter.

Using a heavy duty three point linkage headstock, the deep aeration slitting tines provide surface opening and aeration for sportsfield, amenity and paddock areas.

We offer a choice of 1.4m or 1.7m working width models.

Rear roller kits are available as an optional extra.

Also available is a hydraulic transportable model for road transport use - working width of 2.5m - with tow bar and twin wheeled axle for narrow width site to site tractor towing.

Eco Spread: Tractor mounted load and spread system.

Features heavy duty three point linkage headstock, the unit is designed for one person operation for the loading and distribution of sand or top dressing. A hydraulic service opens and closes a ram to tip or position the bucket upright for loading and transporting.

Twin turf wheels allow drive to a distribution system with agitator and spread control plate.

A simple, efficient method of top dressing / sand distribution with a dimpled drum for even application of material.

With reasonable horsepower and hydraulic services this machine can be used to load, move, dump, spread dressings or sand where ever you require distribution or an even spread.

“SUFFOLK”: Tractor mounted sweeper.

British designed and built machine

Very low running and maintenance costs

1.8m working width with large easy-discharge hopper operated from a single tractor tipping pipe.

PTO driven – with low HP requirements

Mounted by 3 point linkage but runs independently on four wheels in order to follow the contours of the ground.

Depth control by two adjustable front wheels.

Rejuvenates grass, removing dead and loose materials, debris, leaves and animal droppings.

A very cost effective way of keeping paddocks and parks well maintained.

All machines carry a manufacturers 12 month warranty.

POWER LIFT

trailed gang mowers

Designed to accept the Sportster or the Parkster cutting units, the Power Lift has the special lifting feature to raise the outer units to reduce the trailed width to 2.4m, allowing easier transport and access.

Available in 5 or 7 gang version, offering an ultra-wide 4.5m [180 inch] cut.

Seven gang version shown, with Sportster cutting units

Specifications	POWER LIFT	POWER LIFT
	5133GD	7180GD
No. of cutting units	5	7
Cutting width	3380mm	4560mm

Drawbar mowing weight	136kg	184kg
Drawbar jack	381mm [15 inch] stroke	

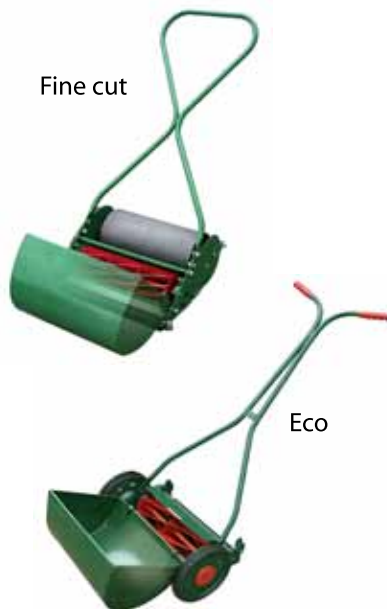

"PUSH'N'MOW" and "TOW'N'MOW" MOWERS

"Push'N'Mow" HAND OPERATED MOWERS

These low cost hand-operated mowers sit comfortably within the RTM range of equipment.

The "Eco" is a basic six blade unit, with a 14" [360mm] cut width and the cut height can be varied from 3/4" [19mm] to 2" [50mm].

The "Fine cut" unit is for greens quality mowing, featuring a ten blade cylinder and roller. Cut width is 16" [405mm], and the cut height can be varied from 1/4" [6mm] to 2" [50mm].

"Tow'N'Mow" REMANUFACTURED GANG MOWERS

Remanufactured by RTM, using new components exclusively manufactured for us. New components include cylinders, bottom blades, rollers, drive components, wheels and tyres, plus frames as required.

Complete sets of three including all frames, fully warranted for 12 months.
